

RUBBER REMOVAL

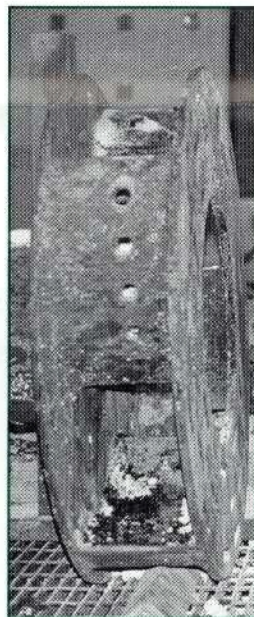

A Steelman Burn-Off Oven is the solution to your rubber removal problems. Steelman Ovens offer an environmentally friendly way to remove unwanted rubber from molds and tooling, rejected parts, and rebuildable machinery.

BEFORE

If you have **Valuable Parts**
coated with **Rubber**
or **Molds** that need cleaning

AFTER

... you can **SAFELY** clean them in a
Steelman Burn-Off Oven with Minimal
Labor and Without Damaging Parts.

DON'T THROW AWAY REJECTED PARTS!!

- **Patented Top/Down Heating System**
Eliminates parts from being overheated.
- **Patented Automatic Process Control System**
Eliminates operator error.
- **Direct-Flame Afterburner**
Eliminates harmful emissions.
