1 Burner Box is built Removable Overhead if Option for Doors on Both Ends is Selected.

** Dimensions and Weights are Subject to Change without Notice. Contact Factory for Latest Specifications.

STEEL PLATE FLOOR OVENS

— ELECTRIC (ESP) GAS (GSP)

- Steel Plate Floor Ovens include 1/4" Plate with Beveled Edge for Easy Cart Movement
- Steel Plate Floor Ovens are available in types Electric or Gas (except model 242)
- Ideal when various types of loading are required (carts, lifts, baskets, etc.)

INSULATED FLOOR OVENS

— ELECTRIC (EIF) GAS (GIF)

- Insulated Floor Ovens are made of 14g steel on 3" Angle Iron w/ 8# density insulation
- Insulated Floor Ovens are available in types Electric or Gas (except model 242)
- These Ovens are Normally used in Overhead or Fork Lift Loading Applications

PORTABLE CART FLOOR OVENS

— ELECTRIC (EPC) GAS (GPC)

- Portable Cart Floors are Insulated and Slotted to Facilitate Loading Carts into the Ovens
- Portable Cart Floor Ovens are available in types Electric or Gas (Except model 242)
- Ideal when Oven is Loaded with the Same Cart or by Carts of Similar Wheel Centerlines

TRACK CART FLOOR OVENS

— ELECTRIC (ETC) GAS (GTC)

- Track Cart Floors are Insulated, Slotted and Include Inverted Angle Iron Tracks
- Track Cart Floor Ovens are available in types Electric or Gas (except model 242)
- These Ovens are Ideal for Handling Large and Heavy Loads

DOUBLE DOORS ON EACH END — (OPTION - DE)

- This Option Allows Loading from Both Ends and/or Passage of Material through Oven
- Double Doors on Each End are Available in all Sizes except 242, 333, 343 & 353
- Double Doors on Each End are Available in all Floor Styles
- Double Doors on Each End can not be Used with the Chain Hoist Loading Door Option
- Double Doors on Each End can be Used with the Option for Overhead Rail Accommodation

CHAIN HOIST LOADING DOOR — (OPTION - CHLD)

- 4" Wide Door in Top of Oven to Allow the Passage of a Hoist into the Oven
- The Length of Door ends at Half of the Interior Depth of the Oven
- The Chain Hoist Loading Door is Available in all Floor Styles
- The Chain Hoist Loading Door is Available in most Oven Sizes
- The Chain Hoist Loading Door cannot be used with Vertical Lift Doors or Doors on Each End

VERTICAL LIFT DOOR — (OPTION - VD)

- Vertical Lift Doors are Available in Lieu of Swing Type Doors
- Vertical Doors are Available in Types: Mechanical, Counter Balanced, Motor Drive, or Pneumatic
- The Vertical Lift Door Option is Available in all Floor Styles
- The Vertical Lift Door Option is Available in most Oven Sizes
- The Vertical Lift Door Option is not Available with the Chain Hoist Loading Door Option

OVERHEAD RAIL ACCOMMODATIONS

(OPTION - R1, R2 or R3)

- 2" x 2" Square Tubing Drop Downs are Built into the Oven Frame To Which Overhead Rails can be Attached
- Doors are specially Constructed to Swing Around Rail Location (R1)
- A Transom with 4" x 4" Cutouts Allows for Rail Entrance and Exit Above Doors (R2, R3, ...)
- Rails are Normally Supplied and Attached by Customer
- Customer to Specify Number and Location of Rail Accommodations

SINGLE OVERHEAD RAIL ACCOMMODATION — (OPTION R1)

Drop Down to Which
Rail can be Attached

Opening in Doors for Rail

DUAL OVERHEAD RAIL ACCOMMODATION — (OPTION R2)

LIMITED WARRANTY

Steelman warrants products to be free from defects in material and workmanship when leaving the factory; provided, however, that liability under this warranty is limited to repairing or replacing (without charge) any defective component within one year from the date of shipment; provided further that in no event shall Steelman be liable for consequential or other damages. Labor charges for the removal or replacement of defective parts are not allowed. No other representation or warranty, either expressed or implied, is made.

HOW TO ORDER

Steelman Industries, Inc. invites your inquiries and special needs. We are prepared to answer your questions and to work with you, either directly from our factory or through our national distributors.

The applications today requiring our expertise seem endless. Does your application require electric or direct firing convection heat? If it does and you also demand quality and value, Steelman will be your choice. Don't be deterred if your size and/or special needs are not addressed in the catalog. Together we will custom design an oven to fit your needs.

Inform us of your application and production requirements via telephone call, fax, mail or email. If your needs are within our expertise, we will immediately return a quote to your attention. If your needs are outside of our abilities, we will immediately inform you.

We welcome your request for quote regardless of whether it is standard from the catalog or not. We normally prepare a formal quote the same day as your request.

We look forward to hearing from you and becoming part of your operation.

Steelman Industries ...

Manufacturing dependable and efficient products for over 40 years.

H-A-S PHASE CONVERTORS

Steelman H-A-S convertors are the most efficient and reliable convertors on the market. Operate three phase motors on single phase service (230/460V) at 100% motor nameplate horsepower. The H-A-S Static is designed for single motor installations and the H-A-S Rotary is designed for multi-motor installations.

BURN-OFF OVENS

(HEAT CLEANING)

They are fully automatic and incorporate unique Top/Down heating. Built standard to FM specifications, they are safe, quick and durable. Uses include but are not limited to stripping coatings, varnishes, plastics, oils, adhesives, etc. Steelman burn-off ovens operate on natural gas or LP gas service.

KVAR POWER FACTOR CAPACITORS

Steelman KVAR units can eliminate the penalty. Power Factor Capacitors provide big savings to industrial plants, hospitals, oil fields, hi-rise facilities, and other large users of electricity. Save on utility cost. Remove the PF penalty and/or qualify for PF discounts. In addition, reduce line current and improve system voltage.
